White Salmon Nursery

HORACE WRAY
Proprietor

White Salmon          Washington
Quality

In the Nursery Business have always been to grow the very best stock possible and to grade it up to the highest standard; and I think I have succeeded. But in some of the cases where I have undertaken to supply the same quality from other nurseries I know that I have failed. Therefore I have decided to let other nurserymen's stock alone. I will grow what I can in the future, under whatever circumstances arise, and whenever it is sold out I will quit for the season and call the thing square.

The stock listed herewith is all of my own growing.

Terms

My terms are cash or satisfactory references before shipment. To patrons of known responsibility I am always glad to ship on approval, cash on receipt of goods and after they have been found perfectly satisfactory. "Short accounts make long friends," is a good policy.

Guarantee

I exercise the greatest care to keep my variety true to name, and hold myself in readiness at all times to replace, on proper proof, all stock that may prove otherwise; but it is mutually agreed between the purchaser and myself that I shall not at any time be liable for a greater amount than the original price paid for the goods.

My specialty is fruit tree stock for large commercial plantings where absolute reliability is essential.

Mt. Hood (Wyeth, the Indian name) from White Salmon, Wn.

Angels look down, the pale lights are low,
Behold a new born king, Wyeth crowned,
The firmanent hath kissed its child with snow.

Horace Wray

Almost daily in winter and quite often in summer storm clouds gather about the summit of Mt. Hood and condense themselves into a fresh coating of new snow. The night following such a storm is so clear and calm and so bright that I fancy the angels of heaven, if they are ever interested in such things at all, must certainly make this the proper time to take notice of a picturesque snow-capped mountain.

Indian legends are to the effect that Mt. Hood is not a mountain, but in reality their own Chief Wyeth, or Wiyeast, of the tribe of Multnomah transfigured into a mountain by the wrath of the great father of Indians, and not dead but sleeping. All the more reason, I presume, to expect good and wise spirits to attend and justification as well for calling each new flurry of snow a kiss—a repentant father's kiss for instance, on the brow of his willful child when he knows him to be sound asleep.
